

Bullet Resistant Glass

WINDOWS AND GLASS

Peace of mind in high threat level areas.

ARA Manufacture's BSA Bullet resistant glass is tried and tested and the only ballistic resistant solution.

OVERVIEW

Designed and manufactured in Australia to Australian and international standards, BSA Bullet resistant glass provides protection to you and your patrons while giving you the peace of mind you need to operate within higher threat level areas. All standard products are available in performance enhancing glass such as solar, low iron, toned and patterned, and are available with a "Spall or Sacrificial" film, for additional protection.

APPLICATIONS

ARA Manufacture's BSA Bullet resistant glass can be used for government and military buildings, banks, financial institutions, jewellery stores and high-end fashion stores.
