

Clearspan Polycarbonate Roller Shutter

ROLLING DOORS

Roller shutter doors offering style and security.

ARA Manufacture's popular Clearspan roller shutter offers style without compromising on security letting your after-hours display sell your product range.

OVERVIEW

Take advantage of every marketing opportunity with this popular design. The Clearspan roller shutter is designed to enable vision of your merchandise whilst providing security and style.

All shutters are counterbalanced per manual operation. Motorisation is optional. This is recommended for wide and/or high openings.

APPLICATIONS

ARA Manufacture's Clearspan roller shutters suit many commercial applications including:

- Shopping centres
- Shop fronts
- Sports complexes
- Bar tops
- Doorways
- Arcades
- Counter tops
- Bottle shops
- Clubs

DESIGN

- **Operation:** All doors are counterbalanced per manual operation and motorisation is optional.
- **Locking:** Centrally mounted two-way mortise key lock or sliding shoot bolt lock mounted within the bottom rail (manual doors only).
- **Curtain:** Clear polycarbonate extrusions, 100mm deep, interlocking with symmetrical aluminium extruded members (30mm) to form a continuous hinge.
- **Brackets:** 90mm x 40mm mild steel.
- **Roller drum:** 229mm spiral ducted tube attached to ball bearing drum wheels rotating on 34mm steel shaft.
