

# Illusion Door

## HORIZONTAL FOLDING DOORS

### A practical side folding door that showcase your business around the clock.

Take advantage of valuable business space, benefit from passing trade and add effective see-through vision for security and after hours display with ARA Manufacture's Illusion door.

#### OVERVIEW

Ideal for commercial applications, the Illusion door is a versatile door and wall system free of mullions and restrictive pillars.

The door opens in a concertina fashion, stacking neatly to one or both sides; providing the maximum width for pedestrian access or movable display stands. The door is designed with the support of an overhead track and rollers assisted by floor guides in recessed channels, so that it can be easily opened and closed by one person.

There is also a swing door available to provide easy access without having to fold the panels.

#### APPLICATIONS

ARA Manufacture's Illusion side folding door suits many commercial projects including:

- Shop fronts
- Arcades
- Bottle shops
- Sports complexes
- Counter tops

#### DESIGN

- **Tracks:** Supported by an overhead track and rollers assisted by floor guides in recessed channels.
- **Leaves:** Even numbered leaves are fitted with top roller. Bottom guide and modified flush bolt.
- **Frame:** Aluminium framed, incorporating glass, polycarbonate or suitable material of your choice.
- **Access door:** Swing door available for easy access without bi-folding the panels.

#### SIZE

Maximum width – endless panels (each panel maximum 950mm wide) Maximum height – 3 metres
