

# Personnel Access Door Set

**HIGH SECURITY DOORS**

**A 37mm thick metal clad, medium duty, foam core door supplied ready for cylindrical entrance lock and pre-hung in a steel frame designed for shed use.**

## SPECIFICATIONS

- 37mm nominal door leaf clad both sides with Colorbond steel skins.
- External steel skins are bonded to an internal foam core with reinforcing to lock and hinge fixings.
- Steel skins are folded over top and bottom of the leaf to completely enclose the ends which are mechanically fixed and sealed.
- Cylindrical lock prep, 54mm hole 70mm backset.
- Frame powder coated to match door skins.
