

SecurAccess®

PERIMETER SECURITY

A comprehensive range of high security street furniture manufactured in Australia.

ARA Manufacture's Leda has a quality range of engineered high security SecurAccess® street furniture including bollards, blockers, gates and barriers which can provide impact protection that is PAS68 and IWA14 rated.

OVERVIEW

ARA Manufacture's Leda designs, engineers and manufactures here in Australia a comprehensive range of high security products to provide varying levels of impact protection.

APPLICATIONS

The ARA Manufacture's Leda SecurAccess® street furniture range is PAS68 and IWA14 rated and protects high profile buildings and iconic sites.

PRODUCT RANGE

Bollards

Crash rated to PAS68 and IWA 14-1, these Hostile Vehicle Mitigation (HVM) bollards protect high-profile buildings and iconic sites. Leda bollards range from fixed bollards, telescopic bollards or rising bollards and can stop a 7.5tonne truck at 64/80m per hour.

Blockers and gates

To provide full perimeter security and protection from HVM, gates, defenders and road blockers work with bollards. Leda's range of crash-rated gates and road blockers can stop a truck travelling at a high velocity.

Temporary barriers

Surface guard and surface mounted bollard systems are a successfully crash tested temporary event security barriers

that can be easily deployed to protect major events like the Sydney New Year fireworks, Sydney's Mardi Gras parade, Sydney's City to Surf marathon, sporting events, musical concerts and other events around the country.

Street furniture

Leda's SecurAccess® street furniture range is aesthetically attractive and high performing. Engineered to protect buildings and outdoor areas from hostile vehicle mitigation, street furniture options include logs, cubes, logs with seating options, planter boxes and concrete bollards with locking pins. Australian designed and manufactured, SecurAccess® street furniture is available in a range of designs and are an economical choice for architects and designers.
