ARA MANUFACTURE

Securaguard Type A Tray

HIGH SECURITY PASS THROUGH UNITS

A small and safe tray for exchanging coins, notes and small documents.

ARA Manufacture's Sealeck Securaguard Type A tray is a shallow tray for exchanging cash and small documents beneath a window.

SEALECK

OVERVIEW

Made from 3mm stainless steel 304 #4 finish casing, the Sealeck Securaguard Type A tray is lined with a black plastic moulded insert for sound absorption when coins are placed into the tray. Upon request, the plastic moulded insert can be replaced with a stainless-steel tray.

The tray is designed to fit flush with joinery bench tops and is suitable for G0, G1, G2, and R1/S1 bullet ratings to AS2343: 1984. Options are also available for the unit to be best to AS2343:1997.

APPLICATIONS

ARA Manufacture's Sealeck Securaguard Type A tray can be used by banks and other company buildings that operate in high threat level areas requiring secure cash and document transfer.

SPECIFICATIONS

Size: Standard size is 364mm long x 380mm wide x 20mm sloped depth.

Finish: Standard 304 #4 stainless steel with black plastic moulded insert.
