

Series 1 & 2 Roller Shutters

ROLLING DOORS

Exceptional protection, strong functional security and aesthetic appeal.

ARA Manufacture's Series 1 and 2 roller shutters suit a variety of commercial uses and offer clients strength, durability and style.

OVERVIEW

Designed for maximum security, the Series 1 and 2 roller shutters offer all round protection without compromising on aesthetic appeal.

The Series 1 is available as partially or fully slotted, with or without polycarbonate infill to assist with air flow and/or visibility. Both Series 1 and Series 2 feature an extruded aluminium slat with a bevelled external face for aesthetic appeal.

Choose between complete block out design or to maintain airflow and visibility. Both are available in a wide range of designs and colours to suit your brand image whilst offering strong functional security after hours.

APPLICATIONS

ARA Manufacture's Series 1 and 2 roller shutters are recommended for use in a variety of commercial spaces including:

- Shop fronts
- Counter tops
- Clubs
- Sports complexes
- Bar tops
- Doorways
- Fire hydrants

DESIGN

- **Operation:** All doors are counterbalanced per manual operation and motorisation is optional.
- **Locking:** Centrally mounted, two-way mortise key lock or sliding shoot bolt locking, mounted within the bottom rail. Optional waist high locking available (for manual doors).
- **Brackets:** 90mm x 40mm mild steel.
- **Roller drum:** 229mm spiral ducted tube attached to ball bearing drum wheels rotating on a 34mm steel shaft.
- **Bottom rail:** 90mm x 48mm extruded aluminium section incorporating locking device and concealed locking rods and optional PVC buffer.
- **Mullions:** Specially designed one-piece extrusion for straight openings and two-piece sections that can be set to any angle and shall be used for wide openings and multiple door installations.
