

# Superspan Poly/Aluminium Roller Shutter

## ROLLING DOORS

### Complementing and secure buildings with large openings.

ARA Manufacture's Superspan roller shutter has perfected a polycarbonate and aluminium door that captures the perfect blend of durability, security and aesthetics.

#### OVERVIEW

The Superspan roller shutter is the ultimate in large span security; designed and manufactured to complement and secure buildings with large openings.

A visually attractive solution that is suitable for a range of commercial applications, the Superspan roller shutter provides security and strength while exemplifying brand power.

#### APPLICATIONS

ARA Manufacture's Superspan roller shutters suit many large commercial applications that need security including:

- Shop fronts
- Bottle shops
- Sports complexes
- Arcades
- Clubs
- Garages

#### DESIGN

- **Operation:** Normally motorised, single or 3 phase.
- **Curtain:** Two-part extruded aluminium hinges 50mm x 25mm.
- **Side guide:** 103mm x 41mm extruded aluminium with Schlegel buffer for quiet operation.
- **Brackets:** 10mm mild steel.

SIZE	FINISH
