

Timber Roller Shutter

ROLLING DOORS

Bring the natural light in and complement your architecture.

ARA Manufacture's Clearfold frameless glass door is a sophisticated design that showcases your business and take full advantage of natural light.

OVERVIEW

This timber roller shutter is supplied in an untreated finish so that they can be stained and matched to blend in with adjacent timbers on site.

This attractive shutter is ideal for small applications when looks are important and clients can select timber or aluminium side guides to suit your requirements.

APPLICATIONS

ARA Manufacture's timber roller shutter is recommended for small applications where looks are important including:

- Reception desks
- Bar tops
- Counter tops
- Doorways

DESIGN
