

Multilock Strike Shield 4000

MSS-4000

OVERVIEW

The Multilock Strike Shield 4000 (**MSS 4000**) double door shield is designed to protect dual locks or electric switches from forceful entry or tampering. Made from 316 stainless steel.

Made to order, the **MSS 4000** will suit steel and timber doors under 3 metres in height and can be made to suit inward and outward opening doors.

DOOR SUITABILITY

- **MSS 4000** is suitable for single and double lock configurations
- Suitable for 45-55mm thick doors with a square meeting stile
- RP16 to be used on opposite leaf
